REGISTER EARLY!

GOOD LUCK IN FINALS!

WELCOME ALL NEW STUDENTS

Vol. IX

Salinas, Calif., Friday, January 26, 1940

Number 17

NOTICE!

Beginning with the spring semester on February 5, one Santa Cruz bus will leave the college at 3:30 instead of 4:30. All students living in Santa Cruz and not having a ninth period class will have to ride home on the early bus. All women students living in Watsonville and not having a ninth period class will have to ride home on this bus.

Registration

OVER 850 STUDENTS EXPECTED AS NEW SEMESTER STARTS

P. E. NOTICE

A student may take as many physical education classe as he wishes to elect.

2. No student is permitted to overlook physical education at any time as the state law

makes it mandatory for him to take the course.

When a student registers late in all classes, he should not have to make up physical education periods that were "missed."

FIREFLY

Cast Practicing For Performance February 16-17

Two Salinas Junior College departments, music and dramatics, have been practicing jointly for the past two months on the greatest dramatical task ever undertaken by the college, produc-ing the bi-annual opera by Ru-dolf Friml, "The Firefly." . Because the jaysee's last light opera in 1938, "Pinafore", was such a huge success, the house being sold out in advance, "The Fire-fly" will be given two nights, February 16 and 17.

The director of the production is Miss Gertrude Lowe, assisted by dramatics teacher, Miss Faith Fraser, and orchestra leader, Mr. Lorell McCann. Miss Fraser is coaching the leads in their speaking parts, and Mr. McCann directs the orchestra which will provide the music for the opera.

The cast is rich in talent. All the leading roles are held by students who are not only ex-ceptionally good actors but outstanding singers as well, which is important in a show of this type with music as the main fea-

Ernestine Morehead is a mez-zo-soprano, who plays the part of Geraldine Van Dare. Gerof Geraldine Van Dare. Geraldine is a young, temperamental girl in love with Jack Travers. The role of Jack Travers is played by Vernal Gilbert. Travers is a happy-go-lucky young man. The part of Jack's uncle, John Thurston, is capably handled by Michael Mapa. Mar-Michael Mapa. Mar-Hambey, and Lucia Mumford all have lead roles and have been

Many of the songs in "The Firefly" will be very familiar to students who hear them over the radio frequently. Especially so will be "Sympathy," "Giannia Mia," "Love Is Like a Firefly," and "When a Maid Comes Knocking At Your Heart". Knocking At Your Heart".

Members of the Junior Toastmasters Club held their final meeting for the fall semester last Friday, with Fred Kostaras acting as toastmaster. The speakers were Vincent Calzado, who reported upon the last meeting of the senior group, which he attended, and Dick Carlisle, who spoke on "The Solar System."

Miss Clark states that she was "very pleased by the performances of the six Salinas Junior College boys" in her peace play.

According to Miss Clark states that she was "very pleased by the performances of the six Salinas Junior College boys" in her peace play.

According to Miss Clark states that she was "very pleased by the performances of the six Salinas Junior College boys" in her peace plays, too.

Was a lurior distribution of the senior group, which he attended, and Dick Carlisle, who spoke on "The Solar System." acting as toastmaster. The speak-

Moonset

Large Audience Attends

Over 300 people witnessed the junior college dramatics department's presentation of a one-act play entitled "Moonset" in the Presbyterian Church last Sun-day night, January 21. The author of "Moonset" is the local playwright and well-known director, Miss Helen Clark. "Moonset" took second place in a national peace play contest last year and has been read over the radio, for which it was written, several times several times.

Story The play concerns six soldiers who are stranded on a desert during the World War. Arabs have surrounded them and are waiting until morning to capture and kill the Englishmen. With Heading the large cast is Muriel Smith, who has a very promising soprano voice, and is cast as Nina, the leading feminine role. Nina is a gypsy girl who poses as a boy in order to who poses as a boy in order to safety and their own cast in on a version trip to Rer.

Glenn Howland, as Gregory, was outstanding, as was Harvey Priddy as Peter, Clyde Green-hill as the stranger, Pat Sulli-van as Neil, Richard Barkle as Gillis, and Pump Vella, who played the part of Moffat.

Mr. Leon Amyx was in charge of painting the set, which was very effective. Mr. Amyx and of road building. Highway construction is a big business in the garet Fernie, Bob McMenamin, hours designing and painting the Ruth Marcus, Bill Adams, Dick canvas to resemble rocks. With canvas to resemble rocks. With a background so realistic the play in its first appearance in Salinas was a real success.

The dramatics department is also very grateful to the local National Guard unit for loaning the cast complete army forms.

The author, Miss Helen Clark, is very active in the Salinas Community Players group. She directs many of the productions of the players. A good majority of the plays Miss Clark has written have been for radio reading, but she has written several long three-act plays, too.

With the paid-up enrollment figure totaling 330 on Wednes-day noon and with an expected additional new 100 now registering, the largest enrollment in the history of Salinas Junior College is threatening to surpass the 850

is threatening to surpass the 850 mark by 5 o'clock tonight.

This is a record enrollment figure for this time of year and it appears as if the 1000 mark will be reached within a two-year period from date. During the past fall semester, the average daily attendance maintained a 771 total.

President Richard J. Werner feels the thousand mark is closer than is suspicioned.

than is suspicioned.

There will be at least 50 trans-

fers from four-year colleges and a good portion of the Santa Cruz hi winter class, which numbers 20. Watsonville will graduate seven.

JOBS

BUREAU REPORTS ON TRENDS

The Placement Bureau reports that at present there appears to be a shortage all over the country of skilled tool and die mak-ers and also a shortage of work-ers in many other semi-skilled and skilled trades.

Favorable trends are predicted for such occupations as radio broadcasting and it is estimated that there will be 10,000 potential jobs in radio stations operated by schools and other educational agencies alone for trained tional agencies alone for trained workers in the coming decade. Optometry is another field where workers are in demand. At present our optometry schools are graduating only about 300 op-tometrists each year and it would be necessary for these schools to graduate about 900 optometrists to meet the grow-ing demand for such workers.

One of the vocational magazines reports that the future will provide extensive employ-ment opportunities in the field United States and employs thousands of workers.

The United States Forest Service reports that, at present, a peak has been reached in the number of technical foresters employed by the U. S. F. S. It is not likely that the present surplus of trained foresters will be absorbed in industry.

"The Political Situation In Europe" was the subject of a talk given before the Salinas Exchange Club Monday noon by

AVIATION

Jaysee Women Take to the Air Next Fall

Here

Thirty-five public speakers, representatives of seven California junior colleges, assembled at the Hotel Cominos last Friday at 12 o'clock to be the guests of the Salinas Jaysee debate de-partment at a luncheon preced-ing a debate forum. Greeting the guests as they arrived were Hostess Margie Reimers and Host Donald Duerr. Newly-elected debate manager, Fred Joyce, contacted the delegates to arrange for future meeting with the schools represented with the schools represented.
Delegates were from San Jose,
Modesto, Hollister, Coalinga,
Santa Maria, and Salinas.

William Martin, toastmaster, presented the speakers, while President Werner, Miss Faith Fraser, debate instructor, Dean Sauble, Dr. Hall, and Student Body President Ted Spaulding. President Werner extended a hearty welcome to the delegates and proudly told of the improveand proudly told of the improve-ments in our institution since the forum luncheon last year.

In order to expedite the process of getting acquainted and to add to the congenial atmosphere, each delegate introduced himself and told a few interest-ing facts about himself and his intended career.

dent speakers returned to junior college and divided into three sections to present short speeches on some phase of Amero'clock the three sections convened to the Little Theatre for an open forum on the facts presented.

Donald Duerr, Margie Reimers and Fred Joyce were section leaders with attendant faculty advisors, Dr. Hall, Miss Fraser, and Mr. Mayes.

Salinas students who participated in the debate forum were: Exchange Club Monday noon by Dr. Luella Hall of the Salinas Junior College faculty. Dr. Hall was a luncheon guest of the club.

Who directed the play, "Moonset" will be presented to the student body March 1, in the Little Theatre.

Starting next September, Salinas Junior College will have women in the air!. Word has Six Jaysees
Hold Meet

Women in the air!. Word has just been received that the J. C. will be able to admit one girl for every ten boys to aeronautics classes in the fall semester. At the present time the college is alloted 20 enrollments, making possible a class of two girls and 18 boys and 18 boys.

and 18 boys.

Qualifications for girls wishing to learn to handle the stick are practically the same as those for boys. They must be regular students, carry a total of 12 units, including five units of aviation, have perfect vision, be able to hear a whispered voice at 20 feet, have normal blood pressure, and be free of various diseases. Sophomores will be given preference, and the fee is \$40 a semester for the course.

At Stanford University last November, 50 students, five of them women, began their first flight instruction under the Civil Aeronautics Authority. One of the five coeds, Joan King, from Pennsylvania, was issued a private license at the age of 16, a feat that gave her front page

feat that gave her front page prominence in the newspapers as the youngest licensed girl pilot in the country. At the present time she has accumu-lated more than 180 hours in the air.

Salinas Junior College girls who wish to "take to the air", can get more information concerning application and enrollment from Mr. Leon Amyx, art instructor. Miss Marjorie Lewis, student from Los Banos, has already filed an application.

imself and told a few interesting facts about himself and his itended career.

After the luncheon, the stundard and self-confidence are pluck, and self-confidence are predominating character traits that are essential factors in the that are essential factors in the make-up of every aviator or aviatrix. Witness the case of Bill Lake, SJC airman, whose first solo trip last week was turned into a nightmare that would offset the nerves of even the most experienced birdmen.

Bill had just taken to the air

Bill had just taken to the air above the Salinas airport in a cozy Cub training ship belonging to Instructor Swain. His ing to Instructor Swain. His hopes were soaring, as well they might, for few were the local college students who had soloed thus far this semester. His nerves were on edge and his throat was unaccountably dry. Battery Editorials

GOOD GRADES

It goes without saying that the past three days of final examinations were a strain upon each and every one of us. Lazy students suffered most, but the studious ones were not free from worry. However, the latter will be rewarded with good grades. The rewards of the former will not be publicized.

Good grades are not obtained by reading books day in and day out; nor are they the result of last minute cramming. Good grades, namely A's and B's, are rewarded students for the amount of interest they show in their chosen subjects and for the type of work they

A SOLUTION TO WORLD PROBLEMS

By MICHAEL MAPA, Staff Observer

While on three battle fronts of the world huge armies are massed, hurling death and destruction upon one another, the residents of the Monterey county area were being treated to a war of another sort recently. A defending army of "Blues" attempted to repel an invasion by a theoretically superior force of "Blacks", but was unsuccessful. All last week was marked with people to become accepted as the credible accomplishments of the two sides. The Salinas airport was entirely demolished, whole companies were wiped out, strategic positions razed and shelled, planes shot down, communication systems destroyed --- and all this with not the loss of a single life or any serious damage to any equipment accounted for!

Up-to-date military science and tactics were responsible for the demonstration as witnessed by the interested townspeople. Warring methods have developed to such a point that war can either be overflowing with blood, or as bloodless as the one just seen. Thus the local area was the center on which the eyes of the world were focused --- foreign military chieftains, with curiosity as to the results accomplished by our methods; foreign civilians, realizing the inadequacy and unappropriateness of their costly wars. War, as we now know, can become a superb, fascinating game, with victory depending upon the military skill and genius of the opposing generals and the strength and ability of their men and equipment.

Consequently, a strong thought arises which to me seems ideal in its way to serve as a solution for the settlement of international strife. Undoubtedly overlyambitious dictators and generals will find this plan ridiculous, but nevertheless everyone must be conscious of the good points which this plan will involve. Do you think that the fallen heroes of he old-time battlefields would shake in their graves with laughter, or would they say that the world was becoming wiser, if: THE TROUBLES AND GRIEVANCES WORLD COULD BE SETTLED PEACEFULLY BY THE RESULTS OF MOCK WARS. Wouldn't this be saner and more practical than, as the old saying so aptly puts it, "dying for your country?" For who wants to die, anyway? Do you?

By RUTH MILLER

You may know how the na tional government operates from your study of the Constitution and United States history, but do you know what makes Monterey County run along smooth A clear diagram on Miss Fraser's bulletin board makes all this easy to understand. It shows the officers of the county their relative positions and sal-aries. At the bottom are such pertinent questions and answers as these: What is the chief governing body of the county? The Board of Supervisors. How may county officers be removed? By recall, provided they have held office for six months or more. Has the county a purchasing agent? Yes, and it makes purchases for the county including those for the elementary schools the county hospital and the county detention home - meals being the only exception.

Have you ever wondered who it was that enable the common subjects in dramas instead of proud kings, princes and generals? According to an article from the Christian Science Monirom the Christian Science Monitor, it was George Lillo, the author of "George Barnwell, or the London Merchant." To quote, "Few English and still fewer Americans have heard of him, and those who have, confuse him with the London. fuse him with Lyly. Lyly in his 'Euphues' invented a way of speech that was silken, but Lillo introduced into the theater, men and women of the middle class that talked in a plain forthright

manner. Lillo made Ibsen and Galsworthy possible."

Muni, the man of 1,000 faces, returns to the stage, and, without obscuring his own face, turns into the characters of the stage. into the characters of great men of history. Proof of this is his of history. Froot of this is his role of a coal miner in "Black Fury," his roles in "Louis Pasteur," "Emile Zola", Wang Sung in "The Good Earth," and the great Mexican patriot in "Juar-

Finally, on Miss Fraser's bulle-tin board, there is an announcement of an oratorical contest treating a significant problem facing America. More specially, the subjects are to be one of these: 'What Is America's Posi-tion In World Affairs?" or "What Effect May Current Trends Have On America?" Can it be that Can it be that this great crisis is neither politieconomical, or social, but er ethical, spiritual and

SPEECH

Miss Margie Reimers and Mr Fred Joyce were chosen at a meeting of the debate class last Tuesday to represent Salinas Junior College at the Fourth Annual College of the Pacific Jun-ior College Speech Tournament in Stockton on February 15, 16 and 17. The tournament is sponsored by the California Delta

chapter of Pi Kappa Delta.

The Salinas contestants will participate in the novel experiment of the program of activities, the Town Meeting. ictivities scheduled are debate oratorical, and extemporaneous speaking.

The debate class and the class of Public Speaking 1B are in quest of suitable subjects for inter-class debates. Debates will be held every two weeks dur-

ing the spring semester.

For several years there has been a rivalry between the two speech divisions, both of which are under the direction of Miss Faith Fraser. So far, the departs class has emerged victoria. bate class has emerged victorious from the contests.

A Few Bone Ticklers:

Miss Fraser: "The Chinese first made their printing on blocks

of stone."

Betty Humphries: "It must have taken a crowbar to break the news."

Who Am 1?

"There, if you don't think I was born some place!" he said, handing us a paper on which was written, "The village of Mounleon in the heart of the Basque country on the French side of the Pyrenees Mountains. We agree

The school system there is entirely different from our own. Education through school was not compulsory at that time, although it is now. Only wealthy and socially prominent people are educated; he said he was the only poor boy from his village to get an education.

He graduated from grammar chool when he was 11, taking a three-day examination, half written and half oral, on such subjects as algebra, chemistry, geometry, etc. (Ouch!) He went our junior colleges, for two alas, it had to be photeu unough our junior colleges, for two years. He spoke Spanish at the air pockets and what not by one William Lake of Gilroy and ish, and was educated French, his father's tongue.

In 1912 he came to the United States to be with his mother, He was who was in Oakland. 13 then, and arrived in New York unable to speak a word of He was sent to Ellis Island, and finally released with numerous tags and tickets, which

He took the largest train he could find, supposing it would naturally take him to San Francisco, and arrived on the shores of Lake Ontario in Canada! Someone who could French found out where he wanted to go, and he was sent back to New York with detectives, who put him on the train for Oakland

Out here on the coast, he worked in a laundry and in grocery stores and began to master English. That was rather difficult, but he had a system could make people laugh at his mistakes, and when they finished laughing he found out what he'd done wrong!
"I never let them laugh twice

at the same mistakes," he said When he was 18 he left home educate himself and worked his way through Durant mar school in Oakland, Oakland High School, and the University

of California, in eight years "I don't want you to think I'm bragging," he said. "When learning English means your bread and butter, you learn it!" He worked as a janitor and

playground director. trained from 400 to 500 foreigners to be come American citizens, worked for five summers at Camp Curin Yosemite Valley, driller in the shipyards during the war, and was foreign ex-change interpreter in the Wells Fargo Bank.

He was studying to be a law yer when he decided to get married and take a teacher's degree intending to go back to law later. He liked teaching, however, and taught for three years in the San Rafael Military Academy, substituted at Marin Junior College, and came here in 1926.

He has a daughter, Romona Louise, six years old, and a son, Rene Luis, who is three and a

We have a genius in our midst! Well, anyway, a cartoonist — and a good one. He's Eldon De-King City, who and a freshman here.

He is now the editorial car-

toonist on the staff of the Salinas Index-Journal.

"Besides his drawing ability he has a very mature sense of humor," said Mr. Leon Amyx, head of the jaysee art department, when he told us of an exhibit of Dedini's cartoons that will be placed in the Little Art Gallery in about six weeks. Nice going, Eldon!

Many students in San Jose were late for classes last week. The clock in the Student Union stopped and everyone took advantage of it.

AVIATION

Suddenly, out of nowhere, a bud droning sound nearly loud blasted his ears from their cavaties and every muscle in his body froze to rigidity. Closer and closer drew tortuous hum; louder and louder. Bill's nerves were screeching for relief, his head and heart were threatening to burst. He didn't feel the "joystick" gripped between his now-bloodless fingers. His mind was gone and his vision blurred. He was nothing but shell, a hollow, empty shell falling, dropping into eternity.

As suddenly as it had approached, the terror died away and Bill's organs began to function normally once again. He broke all landing records in his return to terra firma and sanity, and listened to explanations of his harrowing experience from reclining position ground.

A huge squadron of playful army bombers had "razed" Salinas airport in their oast maneuvering and Bill had been made the target of power-diving monsters.

Still want to take up flying,

WOMAN IN THE HALL

As this is the last edition of the Battery this semester, the Woman In the Hall has taken it upon herself to inquire into the private lives and probe into the secrets of the jaysee studes and find out which of the social events of the fall semester were

enjoyed most. Elizabeth Priddy, (with have been with her best beau?)

Barbara Hawkins: "Our trip to Yuba to see the Panthers play was super." (Truer words were never spoken!) Joe Maddelena: "I'd cast my

vote for the Winter Ball in any poll." (Jeanette was his guest, guess that's why.)

John French: "Joe's vote suits

me, too."

John Keith Pope: "Speaking of good times, the frosh reception and Winter Ball were su-

peeeeeeerrrrrbbbbb."
Mel Stromberg: "Another vote
for the Winter Ball." (Seems that this affair really went over in a big way.)

Ben Crawford: "Never go to school functions; in other words, 'Blank'." (Such school spirit as

I never saw.)
Ruth Miller: "I enjoyed my
trip to 'Hamlet' more than any other school activity. It was wonderful!"

Gordon Brown: "Without a Gordon Brown: "Without a doubt the frosh reception and the Winter Ball were the most outstanding social events of the fall semester." (One with and one without . . . if you know what I mean. If not, ask Brownie.)

Jack Cornett: "I, being a member of good standing, of the 'Rover Boys', do stick by my fellowmen and proclaim the first

skating party as super."

Bette Casey: "Another vote cast for the Winter Ball."

John Silliman: "The Whiskerino and Men's Club supper and the Paignerine ware ware and the Paignerine ware and the Paignerine ware and the Pai the Pajamarino were very swell, but my legs got too darn cold, cuz my nightie wasn't long

Gerald Hansen: "The bonfire, cuz it generated more hot air than the whole school."

Harvey Priddy: "Buddy Maleville's dance at Del Monte, cuz it was free." (Why, Harvey.)
Ted Spaulding: Our esteemed

prexy enjoys the seventh period rallies. Doug Flautt: "The first foot-ball dance, and I'm serious." Herb Jacobson: "The Gold

Room cafeteria dances are lovely." (Wow!)
"Pump" Vella: "Our 'foist'
trip to Hawaii." (Wishing will

make it so.)

"Bud" Winter: "Next year's trip to Arizona will beat them all." (How good!)

Hubert Borba: "I thought the bonfire went off pretty darn well." (Me too!)

well.' (Me too!)
Darrel Jordan: "When I look back upon swell school events the Pajamarino always is fore-most in my mind."

Jack Kennedy: "Final exams."
(Oh, heavens . . . imagine that!)
Harold Davis: "I enjoyed the
Lettuce Lodge meeting." (What
was that???)

Bright, warm-looking colors of blue, red, and green lead the list of attractive colors which make up these outfits. The suits present much warmth within themselves, but displays show long, woolen underclothes with long sleeves, high necks, and extend to the ankles.

ICE SKATING - For such an icy activity the fashions hardly do justice to the cold. Very brief skating skirts, wooly sweaters, bunny hood, and heavily embroidered mittens are the constituents of these costumes. They are styled with a Scandinavian accent and are very smart, but

not very practical.

For the young women who do not participate in these sports, but who are interested spectators, fashions hold many new and attractive ensembles. Jackets and skirts are always good,

scarfs, the newer campus rollers, with the new wide brims, and sturdy flats.

Tweed cardigans with Peter Pan collars, boxy shoulders and very well tailored, worn with all-around plaited gabardine skirts constitute ideal combina-

Sports dresses of jersey or light cashmere wool made on light cashmere wool made on very simple lines do more for all types of figures than any other style. "Harper's Bazaar" and "Mademoiselle" have illustrated many different types of these, all are very flattering, and hold to the simplicity of plain patterns. Dresses of this type are shown made up in multicolored materials, or with blouse and skirt of different hues and attractively set off by a wide and attractively set off by a wide and novel belt. Many of these outespecially when worn with bright slipover sweaters and of various sizes and shapes. fits have matching shoulder bags

Panther Sports

J. C. Baseball Team | Prepares For Combat

The sound of wood smacking against horsehide will resound over the Jaysee campus in the near future when the Panther baseball hopefuls begin vying for championship honors on the diamond.

The baseball schedule is probably the toughest of any athletic schedule in the conference, with 18 league games, double-headers with nine conference colleges, and seven practice tilts. Since most of the league games are to be held on out-of-town fields, the Panthers will have "traveling-dread" to cope with.

With a long line of prospects,

Coach Ed Adams has high hopes of organizing a team that will beat the best of them this year.

Returning to the diamond are a long list of names associated with the Panther nine of last season, including Jack Raine, Jim Hart, Don Paul, Bill Caval-li, Olie Vansandt, Toru Asada, II, Olie Vansandt, Toru Asada, Floyd Wilke, Glen Howland, Casey Kawamoto and Mel Stromberg. Among the new prospects are R. Campos, B. Nerell, F. McAllister, E. Escobar, Bill Leonard, and T. Tainer.

The Jaysee conference sched-

The Jaysee conference sched-ule is as follows: March 9, San Mateo, here. March 16, Marin, there. March 30, San Francisco, here. April 6, Santa Rosa, there. April 13, Menlo, there. April 20, Yuba, here. April 27, Sacramento, there. May 4, Modesto, there. May 11, Placer, there.

Practice games will be played with the San Francisco Seals, San Jose State Frosh, St. Mary's Frosh, Santa Clara Frosh, Wat-sonville high, King City high, and the California Frosh.

SANTA CRUZ DOWNED BY HUGE SCORE

The maroon and gold bas-keteers of Salinas continued continued their high scoring habits by sub marining White's Cardinals of Santa Cruz, 63-24, on the jaysee court last Wednesday evening.

The visitors, with two local jaysee students, could not match the power of the Panthers, who rang up 29 goals to the oppon-ents' nine. "Took" Tainer was in a class by himself, sinking eight goals, one less than the entire efforts of the Cardinals.

The visiting team's personnel consisted of: Pellegrini, Puget, Thomas, Bill Leonard and Ther-

JAYVEE FIVE **CONTINUES ON** VICTORY LANE

The Salinas J. C. Jayvee bas-ketball team continued its winning ways by taking a close 43-39 affair from Jack's All-Stars last Friday evening. This was a preliminary to the varsity tilt. It was the team's ninth triumph in the last ten games.

The visiting duo of Ditlevson and Frese, who made 24 points between them, could not match the trio of Roth, Stokes, and Gipe, the latter man taking local high point honors with nine

The local Jayveers battered the "money men" from the Sa-linas National Bank to a powder here on the local court last Wed nesday evening. The score in round figures was 60-14; Red Roth scored more points than

all the bankers combined.
From the very start, the game was a run-away. Roth and Cornett rattled in the counters with consistency, giving their team a 30-3 margin at the midway point. The second half saw the locals score as often as they had in the first half, while the visitors in-creased their first half total by 11 points. Roth with 18 markers and Cornett with 10, led the

O Comments

By KEITH POPE

Straight from Santa Rosa Junior College comes this "hot" news. A fellow by the name of Lynch, who has enrolled in journalism up that way, wrote something that proved amusing in the halls of the Panther institution. The clipping stated that tion. The clipping stated that Acorne, an average track sprinter, and some of his pals up Santa Rosa way, are going to beat the defending champions of track and field, Salinas Junior College, this year.

Well, Lynch, you can distribute the info that Salinas intends to give the "Teddybear Cubs" a terrible beating in track and any other sport in which the two schools engage. The Panther track machine will SMOTHER Santa Rosa this year and thus retain their title. and thus retain their title.

I feel safe in saying that the

Panthers could put a track squad of five men on the track and field and defeat the "Teddybear Cubs" handily.

A recent statement taken from the Santa Rosa Oak Leaf stated that the Santa Rosa Track squad

that the Santa Rosa track squad was "nosed" out in the final conwas "nosed" out in the illia. Well, ference meet at Salinas. Well, for the privilege of keeping the records straight, the Panthers defeated the Santa Rosa squad by "parrow" margin of 29 "narrow" points!

Lynch writes something about Bobby Wilson, quarter miler; Joe Kelley, mile and half mile; Bob Kelley, mile and hair mile; Bob Call, quarter miler; Bob Acorne, sprints and relay; Al Ball, pole vault; Dale Williamson, hurdle events and relay; Walt Bralich, pole vault and hurdles and Don Bush, javelin.

Bob Wilson wouldn't even make our squad and our Sinclair will beat him easily. As

clair will beat him easily. As far as Joe Kelley is concerned, we have a fellow who runs the half in 1:56 which will give him a first in this league, anytime. Sinclair will be honored to beat Bob Call in the 440.

Bob Call in the 440.

Harold Davis and Kenny Martin, both well-known Salinas sprinters, will let Acorne place third, if some fellow from Yuba doesn't beat him and they tell me that the boys up at Yuba

me that the boys up at rube are really slow.

Now we're down to this fellow who pole vaults, Al Ball.

We have two pole vaulters who are doing 13 feet right now.

"Hank" Schneider cleared the bar three times last week at 13 feet and Benny Robinson has also cleared that height. Walt Bralich, please take note. We have never heard of Dale Williamson so we won't worry about him. Now to get down to this fellow "Joe" Bush who throws the javelin for Santa Rosa — even I could beat him, and I'm

STAGEWORK ON PLAY

Work has begun on the set for "The Firefly." Joe Maddalena has charge of construction. There is to be no formal class on stagecraft next semester, but any students with stage experience that are interested in stagecraft should see Mr. Amyx about helping on the "Firefly" sets. All help will be welcomed and credit will be given by ar-rangement with the instructor according to the amount of work done and hours put in. Gus Whitaker is in charge of the lighting for this production.

CPORT San Mateo to Play Here In League Game

FLASHY STATE FROSH DEFEAT PANTHER FIVE

A classy San Jose State frosh quintet gathering a commanding lead in the early part of the second period, won out 43-37 over the Salinas Panthers in a fast to-the-finish basketball game last Friday evening on the local court.

The visitors played classy ball throughout. Their floor work, deceptive passing game, and accurate shooting, proved deadly enough at the outset of the second period to command a lead that was too much for the Panthermen to overcome. linas at the same time played erratically, missing many shots and free throws, the latter totaling 13. When the team did regain its form it was too late; few minutes remained.

At the very beginning, Salinas handled the ball quite frequently, but wild heaves prevented any serious tallying. The score any serious tallying. The score at halftime read, 17-14, San Jose State frosh.

Playing snappy and fancy ball in the early second period, the Staters rang the bell with con-sistency, piling up 12 points to the locals none as Diedricksen and Filice sparked the attack. While Salinas was still fumbling around, the frosh team hung up three more goals to bring the count to 36-19.

Little Marlin Dimick, speedy guard, set the stage for a late Panther thrust. His brilliant allaround play and his fighting spirit pepped the team to a late rally which netted 13 points to the visitors' 3. Dimick, Tainer, Dowden and Hansen gathered in the points. The precious min-utes ticked away all too rapidly and the game ended in San Jose's favor, 43-37.

FIGHT PANTHERS

The Panther hoopsters begin their conference season tonight when they trot onto the hard-wood and fight for the casaba with the San Mateo Junior College five. The local hoopsters have a well-rounded and successful practice behind them with an excellent percentage of wins, while the San Mateo outfit has had a very short season. The San Mateans have played in the Modesto tournament and one game each with Santa Clara and San Jose State frosh quintets. They defeated the Bronco Year-lings and lost to the Spartan

The visitors, headed by a new coach, Clyde Devine, of Oregon State fame, are comparatively small, the largest man being Juny Wirth, center, who is 6 feet 2 inches tall, and quite a demon under the basket. Their two forwards are only 5 feet 8 inches but make up 5 feet 8 inches, but make up for their size in playing ability. Janvier, one of them, has averaged 18 points per game thus far this season.

The Panthers appear to have the advantage in size, experi-ence and quantity, and there-fore should be the favorites with the full support of the student body behind them at the game.

Lineups
San Mateo: Forwards, Janvier and Kikes; centers, Bill and Firestone; centers, Wirth and Bowen; guards, Cavanaugh and Finnegan, Bacon and Sheehan. Salinas: Forwards, Hansen and Tainer; center, Lee; guards, guards, Dowden and Crawford.

The 1939 football championship team of Salinas Junior College, upheld the honorable feat of the 1938 squad, that is, finishing its second season under the lights of our home field undefeated.

Harold Davis, sensational sprint star, has run the 100-yard dash in 9:6 and blazed through the 220 in 20:9.

Salinas jaysee won two championships during the 1939 year. The track squad competed in 12 dual meets, won every one and climaxed a successful season by drubbing the other conference schools in the conference meet. The boxing team won the league

championship.
Merritt Davis, transfer from

San Mateo, has run the half mile in 1:56. "Hank" Schneider, transfer from Fresno State, has pole-vaulted over 13 feet on several occasions

Salinas Junior College has an outstanding athlete enrolled, namely, Benny Robinson. Benny has pole-vaulted 13 feet, broad-jumped 23 feet, made a throw of 195 feet in the javelin, and high-jumped 6 feet 4 inches.

Salinas Junior College's baseball team of last year defeated all of the B conference schools in the games played.

The Panther baseball squad will travel about 1,700 miles this season. Seven veterans will return.

Two science majors of Salinas Junior College, Arnold McKen-zie and John Cincotta, have won the unusual distinction of maintaining an A average in all their
